

Chenal Properties, Inc.

presents

Building Tomorrow's Dreams Today.

"We are overjoyed at the quality and beauty of our new home. The open floor plan is perfect for our family, and each day brings a new favorite feature."

— Drs. Andrew and Jamie Grose

"Building our home has been a wonderful experience. Their process enabled us to be actively involved in the build allowing it to be predictable and enjoyable. We have built several homes in the past and this has been our best experience."

— Phil & Peggy Stratton, CFO,
The Dover Corporation (Retired)

Our experience and capability places the limitations on the customers ability to allow themselves to dream of the impossible. We have the technology and resources to ensure that your home is everything you imaged. We also take great pride in ensuring that the cost of your investment is accurate, dependable and approved prior to construction.

Jadee Construction is a team of skilled professionals dedicated to our customers satisfaction. We are committed to ensuring that your needs are met and your dreams become reality. Our team of professionals is made up of every aspect of the construction process from structural engineers to interior designers all provided to you as a customer of Jadee Construction. Our professionalism facilitates planning and minimizes the incidence of

mistakes which allows us to make the building process a predictable and enjoyable experience as well as being the most cost effective choice when building a home.
